IMBA 2015

IMBA 2016

IMBA 2017

Graduation at Liverpool Hope University, UK

“At the Liverpool Hope Business School, I have thoroughly enjoyed the course because of the interactive and the unconventional ways in which teaching is practiced at Hope. The faculty at the University is highly qualified and extremely supportive. The robust academic activity has helped me gain a better understanding of my course within a real world scenario. At Liverpool Vision, I was able to understand and learn more about what ‘Constitutional activity’ is alongside the industry requisites through my project experience.”

Taking a sabbatical after working for five years, and joining an IMBA programme allowed [Savitha Article in Ed Plus- June 2016.docx](#) her to grow SAVITA JAGANNATH writes...

Student Testimonials

“The experience of doing my MBA in International business from the Liverpool Hope business school made me realise the importance of networking with people around the globe. The vivid employment opportunities are quite bright in England with the right skills. I was exposed to different business problems and navigate through different thinking approaches towards the solution. The Business gateway team supports and stands as a door for graduates like me to enter into the corporate job market.”

SHANKAR HARIHARAN

Best Performing IMBA Student 2016 - 2017

The purpose of education is to replace an empty mind with an open one..[Patricia- write up.docx](#)

Dr. Atulya Nagar** last Christmas

Dr. Ian Vandewalle
Director, Hope Business School

“ Our agreement is up for renewal in July 2018 and requires a 'formal' review prior to extension. From our point of view, we would dearly love it to be extended for a further three years (and more) and hopefully you are of the same opinion. The current cohort of students are extremely good.” - IAN

Dr Pillay with the Current Batch at LHU - 2017
